CHL SOFTECH

WEB DESIGNING AND DEVELOPMENT AGENCY
Design that helps You Connect with the Users.

CONTACT

"CHANGE IS THE ONLY CONTASTANS" is a phrase which encompasses the universal Law of the Universe itself. And the human civilization is a prime example of an ecosystem which has constantly, and successfully, accepted change as it happened. The last couple of decades has thrown open a space which was hitherto unknown in its range, capabilities and awesome powers – the Digital Space. Today, businesses are looking at taking their business to digital platform, establishing a reputation and identity in this space. They are transforming their business online and selling to customers in distant lands. Geographical boundaries have blurred as far as trade and business is concerned. But what businesses need today is a robust IT support to ensure integrated digital presence and be a step ahead of the crowd. CHL SofTech acknowledges this need and is geared to provide top notch IT, website and application solutions for your businesses. Our highly skilled domain experts bring you the knowledge and experience of having worked on a multitude of projects in diverse industry verticals to ensure high quality solutions and timely delivery that span Website Design, e-Commerce Development, Domain/Website Hosting, UX Design, Software Development, Mobile Apps Development, Process and Workflow automation, Content Management System, etc. CHL SofTech is an initiative of Crystal Hues Ltd, a complete communication life-cycle company which has serviced more than 5,000 clients across the world in the last two and a half decades. We bring to you the combined essence of our multi-talented workforce, which is derived from various industry segments, to give you unparalleled solutions that are seamlessly integrated into your business processes.

Our MD

Making sense of global languages In 1989, Sudheen started a translations company to follow his passion for languages. Before long, he realised the word 'translation' was a misnomer - his real business was that of mediation: being the bridge between people inhibited by language. Today, riding that line, he has become the reach-out-guy across a world wanting to unite around the 7000 languages it speaks.

Our CEO

Abhay Kumar Singh holds a Masters degree in Information Technology. He has over 10 years of experience in website and application development. Over the years, he has consistently delivered good custom ERP and CRM applications like Information Management System, Project Management System, Law Practice Management System, Marketing Management Systems alongwith over 200 website for premium clients.
